

**Clamorous Love**

*Surely, a clamorous love it was  
That resembles the sea;  
In the sea we were boats  
Going about together.*

*Traversing a very far heaven,  
We were together too;  
With vision and talents  
We were watering fields,  
To build up a homeland,  
Like which we have not seen at all;  
A homeland that in love has gone up,  
And with miracles has folded;  
A homeland that Allah endowed  
With honor and glory;  
It is the blessing and the fate,  
Which powerful became with procession.*

*An eye as well as an eyebrow, in giving  
We were to you **Cluster of Hope Batch**;  
And an eye as well as an eyebrow -  
In favoring and giving preference -  
You **Cluster of Hope Batch** were to us.*

*Passion reminiscence for you  
There in soul we remain,  
Whenever wide gap night descended,  
Like plants would it be appearing.*

*Also there will remain seeing you  
Eyes that you can see not;  
So difficult it is to them,  
To fasten your luggage;  
And to travel,  
Is the most difficult thing to them  
There, they were home for you  
And there, they were  
Playing fields for you too.  
Fresh pure cold water and also stars  
You were for them;  
And for you they were  
Sun and drinking places.*

*Peace and peace onto you  
Wherever you dear people are.*

*Peace and peace onto you  
O! what best companions were you.*
